

hanit® SQUARE POST, REINFORCED

The especially sturdy one

hanit® square posts are perfectly suited for building fences. They're consistent, safety conscious and incredibly durable. If you need additional strength, choose the 9 x 9 cm profiles reinforced with steel tubing.

Material:

hanit® Recycled Plastic

Dimensions:

9 x 9 cm

Various lengths

Model:

Solid material with point

Internal steel reinforcement
S235 (Ø 26.9 mm, wall thickness approx. 2mm)

Note:

Due to varying expansion coefficients of plastic and steel, the posts are equipped with an expansion chamber that will be filled with a stopper.

Advantages:

More durable than wood

Splinter-free

Rot-free

No harmful impregnation agents used

Flexible use

Easy to work

Workable like wood

..... With internal reinforcement (Sectional view)

INTERNAL REINFORCEMENT

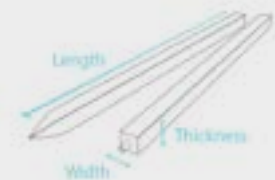

Technical data of reinforcement:
 Steel tubing: S235
 Diameter: 26.9 mm approx
 Wall thickness: 2 mm approx

The posts are equipped with an expansion chamber due to the varying expansion coefficients of plastic and steel; this is sealed using a cork.
